ABOUT THE DEPARTMENT

The Department of Architecture was established in the year 1992 - 93 with 40 student's intake and the department has grown from strength to strength with an intake of 80 students, and is one of the oldest and the first private management colleges to start architecture course in Tamil Nadu. The College is Autonomous, under the affiliation of Anna University, Chennai. The Department has trained more than 1000 architects in the last 26 batches and all our graduated students are well placed in India as well as abroad. The students are ensured an esteemed place in the society. Architecture is a five year undergraduate program which focuses on diverse fields in design and built environment. The Department abides by the principle of "Multi-sensory Approach" towards teaching and learning architecture, guided by eminent architects and diverse team of professors who acquired their education from premier institute and are committed. Design forums, Seminars, workshops, conventions, and lectures are conducted in various topics to provide global competencies in Architecture. Case studies and Architectural academic tours are planned to be an eye-opener for the students to understand our living environment in a deeper and more experiential way.

The department has a state of art facilities like Computer Lab, Climatology lab, Acoustic lab, workshop areas, model making studio, AV Room, Studios, E-Studio, display room, construction yard for hands on experience in construction and independent library within the department exclusively for architecture students. It covers books on the latest subjects, also includes national, international journals and e-journals.

VISION

To be acknowledged as the most preferred destination by students, academicians and the industry that seeks the committed, knowledgeable and socially responsible professional in architecture.

MISSION

To Foster passion for excellence.

To rejuvenate professional competences to create job providers instead of job seekers.

To inculcate learning attitudes that makes students capable of building their careers with a sound foundation knowledge.

To mould the students acceptable to the business and industrial world.

To make our students competent in communication technical aspects of projects both at individual and group levels.
