DATE: 23.10.2024

CENTRE FOR FACULTY DEVELOPMENT

“NBA: New SAR Brain storming session”

Resource Person: Dr. K. Santhi HoD/EEE Coordinator – Accreditation & Ranking, Adhiyamaan College of Engineering, Hosur

Date : 19.10.2024

Venue: Conference room - II, Adhiyamaan College of Engineering, Hosur

Time : 10.30 AM

Introduction:

Centre for Faculty Development aimed Ethics and innovation are two essential pillars of modern education. **Ethics in teaching** refers to the moral principles and professional conduct that guide educators in ensuring fairness, integrity, respect, and responsibility in their interactions with students. It promotes a learning environment built on trust, equity, and honesty. On the other hand, **innovation in teaching** focuses on using creative and modern methods, tools, and technologies to enhance learning outcomes. It encourages teachers to adopt new strategies such as digital learning, collaborative projects, and experiential education to make learning more engaging and effective. Combining ethics with innovation ensures that while education evolves with technology and new methodologies, it remains grounded in values that uphold student welfare, academic integrity, and social responsibility. Together, they help create a balanced, forward-thinking education system that prepares learners for ethical and innovative contributions to society. The workshop commenced with the Tamilthai Vazhthu. Mrs. M. Sukanya, AP/EEE, ACE, welcomed the participants and highlighted the importance of ethics and innovation in teaching.

CONFERENCE ROOM- II

Program Overview:

- **Moral Foundation in Education** – Emphasizes the importance of ethical values such as honesty, fairness, respect, and responsibility in the teaching profession.
- **Professional Conduct** – Encourages teachers to follow ethical standards in decision-making, assessment, and relationships with students, colleagues, and the community.
- **Innovative Teaching Methods** – Promotes creative and modern instructional approaches like digital learning, project-based activities, and blended teaching techniques.
- **Technology Integration** – Utilizes technology and digital tools responsibly to enhance student engagement, collaboration, and personalized learning experiences.
- **Student-Centered Learning** – Focuses on developing critical thinking, creativity, and problem-solving skills through ethical and innovative educational practices.
- **Lifelong Learning and Adaptability** – Encourages educators to continually update their skills, knowledge, and teaching strategies to meet changing educational needs.
- **Social and Global Responsibility** – Instills awareness of social, cultural, and environmental responsibilities among both teachers and students.
- **Quality and Integrity in Education** – Ensures that innovation in teaching maintains high academic standards, authenticity, and integrity in all educational practices.

Conclusion:

After the presentation, an open discussion was held where faculty members raised questions and shared their insights on the topics covered. Mr. G. Elango, Assistant Professor/EEE, delivered the vote of thanks, expressing her gratitude to Dr. K. Santhi, for her valuable insights and to all participants for their active engagement. The workshop concluded with the singing of the National Anthem.
