

POST GRADUATE COURSE

**M.E.-COMPUTER SCIENCE AND
ENGINEERING**

ADMISSIONS OPEN 2025-2026

ADHIYAMAAN

COLLEGE OF ENGINEERING
(AN AUTONOMOUS INSTITUTION)

**(Affiliated to Anna University, Chennai, Approved by
AICTE, Accredited by NAAC - UGC)**

Dr.M.G.R. Nagar, Hosur Krishnagiri District, Tamil Nadu - 635130

ABOUT US

Our Computer Science and Engineering program is approved by AICTE and spans four semesters, offering a blend of core and elective courses designed to provide a strong foundation in both theoretical and practical aspects of computing. We follow a Continuous Assessment System, ensuring regular evaluation and feedback to foster academic growth. The program emphasizes hands-on learning, with projects assessed in two phases to encourage innovation and problem-solving skills. By integrating practical experience with foundational knowledge, we aim to instill confidence and expertise in programming, preparing students to excel in the dynamic field of technology.

VISION OF THE DEPARTMENT

To empower young minds to become resilient professionals, instilled with ethical principles and equipped with cutting-edge technologies to meet the evolving demands of the world

MISSION OF THE DEPARTMENT

M1: To empower individuals with a comprehensive understanding of computer engineering principles and its applications through effective teaching and learning practices.

M2: To cultivate excellence and critical thinking, while leveraging global competency, thus enabling significant contributions to societal challenges in the fast-paced technological landscape.

M3: To facilitate the students to work with modern tools and technologies to foster innovation, a zest for higher studies and to build leadership qualities by inculcating the spirit of ethical values.

COURSE STRUCTURE

- Semester 1 to 2 : Core Subjects (Foundation of Data Science, Research Methodology and IPR, Network Terminologies and Protocol) + Electives.
- Semester 3 : Specialization & Research work.
- Semester 4 : Thesis/Dissertatioin

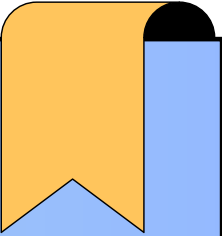

SPECIALIZATION AREAS

- Artificial Intelligence & Machine Learning
- Cyber Security
- Cloud Computing
- Big Data Analytics

RESEARCH & FACILITIES

- Provides ample opportunities for students to explore both research and development skills.
- Offers advanced and specialized courses to provide deeper insights into various subjects.
- Encourages a personalized learning approach to foster multidisciplinary research.
- Equips students with essential skills to analyze, design, develop, and evaluate high-end computing systems.

UNIQUE FEATURES

- Industry - Aligned Curriculum
- Expert Faculty & Membership
- Advanced Research & Learning Facilities
- Strong Industry Partnerships
- Holistic Skill Development
- Global Exposure & Networking Opportunities
- Excellent Career Prospects

CAREER OPPORTUNITIES

- Software Engineer
- Data Scientist
- Cybersecurity Analyst
- AI/ML Engineer
- Cloud Architect
- Research Scientist
- Teaching Professionals
